FOUNDER & CEO

## BIO

Brett Sciotto is the founder and CEO of Aimpoint Research, a global, strategic intelligence firm specializing in agri-food that was named to the 2020 Inc. 5000 list of fastest-growing companies in the U.S. Brett leads a team of former military intelligence,

officers, agricultural experts, and market research professionals as they work to empower intelligence-driven organizations.

Through a unique blend of military intelligence techniques and cutting-edge market research capabilities, Aimpoint Research helps organizations understand what's really happening in the marketplace, what's going to happen in the future, and what to do to ensure success in that future.

A graduate of the United States Military Academy at West Point and a former Army Intelligence Officer, Brett Sciotto brings a practical, results-oriented approach to the civilian business world. His training in, and emphasis on, mission-critical information-gathering and targeted research methodology make him unique in his approach to problem solving in a corporate environment.

Brett's disciplined, vetted approach to research is coupled with his military precision in detailed analysis and final presentation to his clients. With nearly two decades of research expertise, he has had tremendous success advising corporate leaders, government officials and state and national organizations at all levels.

## WHO WE ARE

Organizations across the agri-food value chain are trying to thrive in an increasingly dynamic, global economy with fluctuating regulations, evolving technology, and changing consumer demands. At the same time, the sheer volume and complexity of data and information available at our fingertips and splashed across news feeds is making it harder for leaders to connect the dots and understand what's truth and what's noise.

Aimpoint Research® is a global strategic intelligence firm specializing in agri-food. We provide a unique blend of military intelligence techniques and cutting-edge market research capabilities to help leaders and organizations understand **what's really happening** in the marketplace, **what's going to happen** in the future, and **what to do to ensure success** in that future.

Founded and led by former U.S. Army Intelligence Officers, experienced research professionals and agricultural experts, our team is driven by the core belief that the success of the agri-food system is essential to national security.
